Sample Survey Questionnaire Covering Economic Research in ORR and AFOIN-3A

SUBJECT

The Electric Power Industry in the Sino-Soviet Bloc

OUTLINE OF ORR RESEARCH COVERAGE

All elements having to do with the production, transmission, distribution, and utilization of electric power, including the facilities used in these processes. Excluded from primary responsibility for coverage are the manufacture of capital equipment involved in the industry, and the labor and materials required in the construction of new buildings, structures, dams, roadways, and similar facilities. These aspects are covered by other branches in ORR.

ASPECTS OF ORR COVERAGE WHICH OVERLAP WITH SIMILAR SUBJECT MATTER COVERAGE IN AFOIN-3A

Power Plants - location, capacity, type.
Transmission Systems - terminal points, routes, substations, operating voltage.
Production and Consumption - by plant, area, or region; to serve as guide to relative strategic importance of plants and transmission facilities.
Principal users - location, kind, magnitude of production of large users of power; to serve as guide to relative target importance of electric power plants serving them.

ASPECTS OF ORR COVERAGE WHICH DO NOT OVERLAP WITH AFOIN

Power Plants - more details on equipment such as number and size of units, condition, average annual hours of utilization, limiting factors on use, source and quantity of fuel, labor, and other operating inputs.
Production (kwh) - as a measure of the capability of the industry to meet the needs of the regional and national economy; also as a basis for establishing monetary cost of production.
